Douglas' New Robotic Metering Reduces Maintenance and Improves Simplicity

ALEXANDRIA, MN. (April 24, 2019) - Douglas is pleased to announce a design improvement applying our proven SCARA robot technology to the metering system on Contour™ 60-Series machines. A single robotic arm uses Rockwell controls and replaces linear motors from the previous metering design. Customers are provided with enhanced durability, lower maintenance costs and improved accessibility, simplicity and efficiency.

About Douglas Machine Inc.

Founded in 1964, Douglas Machine Inc. (Douglas) is a global leader in automated secondary packaging solutions for paperboard, corrugated and shrink film. The company specializes in the design and manufacture of case & tray packers, shrink wrap systems, cartoners, sleeveers, multipackers and palletizers. Based in Alexandria, Minnesota, Douglas is an employee-owned company that has installed more than 11,000 machines in 30 countries.
